Army Chemical Review (ACR) (ISSN 0899-7047) is prepared twice a year by the U.S. Army Chemical, Biological, Radiological, and Nuclear School and the Maneuver Support Center, Directorate of Training, Fort Leonard Wood, Missouri. *ACR* presents professional information about Chemical Corps functions related to chemical, biological, radiological, and nuclear (CBRN), smoke, flame field expedients, and reconnaissance in combat support. The objectives of *ACR* are to inform, motivate, increase knowledge, improve performance, and provide a forum for the exchange of ideas. This publication presents professional information, but the views expressed herein are those of the authors, not the Department of Defense or its elements. The content does not necessarily reflect the official U.S. Army position and does not change or supersede any information in other U.S. Army publications. The use of news items constitutes neither affirmation of their accuracy nor product endorsement.

Articles may be reprinted if credit is given to *ACR* and its authors. All photographs are official U.S. Army photographs unless otherwise noted. *ACR* reserves the right to edit material.

Personal subscriptions are available through the Superintendent of Documents, PO Box 371954, Pittsburgh, Pennsylvania 15250-7954.
