

Directorate Update—Personnel Proponency

On 1 October 2003, Military Occupational Speciality (MOS) 54B (chemical operations specialist) will convert to MOS 74D. This is only a designation change and will not impact individual soldiers except for their MOS identification. Many other MOSs will change designations in the next few years. For a complete listing of designation changes, go to <https://www.armyg1.army.mil/pamxxi/secured/mosstructure/mos-charts.asp>.
