Mr. Hasty is the Soldier project officer assigned to the Science and Technology Division, Unit of Action Maneuver Battle Lab, US Army Armor Center, Fort Knox, Kentucky.

A special thanks to Mr. Cole for his contribution to this article.

Personal Protective Equipment Survey

The Army has launched a study on the effectiveness of personal protective equipment (PPE). To gather information, the US Army Infantry Center at Fort Benning, Georgia, has developed a helmet and body armor survey to gather information on incidents involving PPE. The data collected in the survey will be used by the Department of Defense to develop improved Soldier PPE. The survey, located at <https://www.infantry.army.mil/surveys/ppe/ppe.htm>, should take less than 10 minutes to complete.
