

Fort Leonard Wood Continues Work on State-of-the-Art CBRN WMD Response Training Facility

Compiled by Ms. Karen Byrd and Mr. Jimmy Williams

The construction of the First Lieutenant Terry Chemical, Biological, Radiological, and Nuclear (CBRN) Weapons of Mass Destruction (WMD) Response Training Facility is proceeding slightly ahead of schedule. In the main building (classrooms), roof decking has begun. The building structure is set, the footing and structure are complete, and workers are continuing to work on structural steel studs. Construction of the caves and the four-design building, consisting of two warehouses, a factory, and a post office continues. The caves are 90 percent complete, lacking only the retaining wall and backfill dirt to cover the structures.

The \$15 million facility, named in honor of World War II hero and Distinguished Service Cross awardee, First Lieutenant Joseph Terry (refer to page 33 for additional information), is scheduled to open in the summer of 2007. The facility will offer state-of-the-art training for Army National Guard Civil Support Teams, U.S. Army Chemical units with homeland security missions, Department of Defense emergency response teams, and other Dragon Soldiers. 🚫🚫

 **Submitting an Article to**
Army Chemical Review 

Articles may range from 2,000 to 4,000 words. Send a paper copy along with an electronic copy in Microsoft Word on a 3 1/2-inch or compact disk to *Army Chemical Review*, 464 MANSCEN Loop, Suite 2661, Fort Leonard Wood, Missouri 65473-8926 or e-mail <acr@wood.army.mil> with "Submit an Article" in the subject line.

Contributors are encouraged to include black-and-white or color photographs, artwork, and/or line diagrams that illustrate information in the article. Include captions for any photographs submitted. If possible, include photographs of Soldiers performing their missions. Hard-copy photographs are preferred, but we will accept digital images in TIF or JPG format originally saved at a resolution no lower than 200 dpi. Please do not include the images in the text. If you use PowerPoint, save each illustration as a separate file and avoid excessive use of color and shading in graphics and slides. Please do not send photographs embedded in PowerPoint or Microsoft Word documents.

Articles should come from contributors with firsthand experience of the subject being presented. Articles should be concise, straightforward, and in the active voice. Any article containing information or quotations not referenced in the text should carry appropriate endnotes.

Include your full name, rank, current unit, and job title. Also include a list of your past assignments, experience, and education and your mailing address, fax number, and commercial daytime telephone number.

Include a statement from your local security office stating that the information contained in the article is unclassified, nonsensitive, and releasable to the public.

All submissions are subject to editing.
