

THE CHEMICAL CORPS VISION

A Corps and Army capable immediately of countering the entire range of CBRN threats and effects to protect our Nation, operating seamlessly with military and civilian partners, while conducting simultaneous operations from civil support to war.

PARTNERSHIP

Develop an understanding of the key and enabling experts...and an ability to collaborate effectively with them...to include joint, interagency, intergovernmental, and multinational (JIIM)...and civil authorities, either domestically or within host nations abroad.

CAPABILITY

A professional U.S. Army Chemical Corps, expertly manned, equipped, and trained...preparing all U.S. Army organizations at all echelons through technical expertise...at the peak of readiness to perform immediately when called upon.

OPERATIONAL ENVIRONMENT

Execute simultaneous, full spectrum operations (offense, defense, and stability or civil support)...within the homeland and in an operational theater...across the spectrum of conflict, from permissive to hostile environments.

EFFECT

Proactively execute our role in combating weapons of mass destruction (WMD)...where chemical, biological, radiological, and nuclear (CBRN) are inclusive of traditional weapons and toxic industrial materials...and contribute to the protection warfighting function as it applies to people, equipment, and information.
