

**Amanda N. Pinson**  
**Training Support Center**  
**Training Aids Catalog**

**Casket**

Full sized casket for training funeral detail

**Advanced Land Nav (GTA)**

Flip chart for Training land navigation

**Compass, Mock-Up**

Visual aid for Compass Training

### **Graves Registration Kit**

The Graves Registration (GRREG) kit is a hands-on exportable device used to train and evaluate personnel in graves registration operations and procedures.

### **Bullhorn**

*DVC#LFC-128-CAR*

Portable bull horn that can be used on ranges, or anywhere voice amplification is needed.

### **Identification Board**

Two dimensional plastic replica training board sets. These recognition boards will show actual dimensions of the ordnance items, enhancing the Soldier's ability to recognize UXO hazards.

### **Cam Simulator**

Provides realistic training for the CAM. Replicates system employment as closely as technology will permit.

### **Pugil Equipment**

*DVC#T07-107*

Foam padded tubes that are 5 ½ in diameter. Training in one-on-one pugil techniques increase a Soldier's skill in rifle-bayonet fighting, aggression and confidence. This training furnishes the fighter with an opponent who can think, move, fight back, and (most importantly) make corrections. Safety equipment is also available.

### **EOF Module**

This kit is used to train soldiers to interact with the local populations. The kit includes a Phraselator, Voice Response Transmitter, Bullhorn, Searchlight, Restraints, and assorted support items.

### **IED Training Kit**

Kit contains different types of Iraqi training munitions. The intent is that while training, a unit will be exposed to a wide variety of IEDs. The munitions in the kit would be interchangeable to reflect the weapon of choice used in the area of operation.

### **CO2 Mine**

Provides effects signature when stepped on. Training is required for these devices.

### **Pressure Detonator Mine**

The systems use CO2 and powder to give a signature for the explosion. Training is required to operate these devices.

### **Inert Suicide Vest**

A full-scale replica of a vest with inert pipe bombs, nails and nuts for shrapnel, and an alarm. this device will alert the students when the trigger device is pressed.

### **Inert Suicide Bomber Kit**

A briefcase that has inert pipe bombs with nails and nuts for shrapnel. the case has a dummy cell phone for a trigger and an alarm that will alert the students when the case is opened.

### **Crew 2 Countermeasure System**

This system is installed in the unit's vehicles to replicate the Duke system. It has the same controls as the Duke but does not interfere with normal comms. It does however, counter the TIED 2 system of IED trainers. Training is required to operate these devices.

### **Crew 2 cm System / pda**

This device is used to upload and download information from the CREW 2. Training is required to use this device.

### **Crew 2 cm System / laptop**

This device is used to create frequency sets for the CREW 2, and CVRJ trainers. It is also used to

### **IEDES NON-PYRO Set**

The purpose of the IEDES 1 Training System is to provide visual and audio signature effects that realistically replicate combat situations, in support of Explosive Hazard Defeat (EHD) training objectives. Training is required to use this device.

### **9mm Plastic Pistol**

Full-scale, three dimensional plastic replica of a U.S M9. This device can be used for drill and ceremony, instruction, physical training, drown proofing, vehicle searches, op for players, and demonstrations.

### **M16A1 Plastic Weapon**

Full-scale, three dimensional plastic replica of M16A1 rifle to be used for drown Proofing.

### **M4 Plastic Carbine**

Full-scale, three dimensional plastic M4 Carbine. This device can be used for drill and ceremony instruction, physical training, vehicle searches, op for players, and demonstrations.

### **AK-47 Mock Weapon**

Full-scale, three dimensional plastic replica of an AK47, the most common weapon used by the opposing forces. This device can be used for instruction, vehicle searches, op for players, and demonstrations.

### **PKM, Mock Weapon**

Full-scale, three dimensional plastic replica of light Soviet machine gun. This device can be used for vehicle searches, op for players, and demonstrations.

### **SVD Sniper Rifle**

Full-scale, three dimensional plastic replicas of a Dragonov sniper rifle. This device can be used for instruction, vehicle searches, op for players, and demonstrations.

**RPK Squad Machine Gun**

Full-scale, three dimensional plastic replica of a Soviet RPK. This device can be used for instruction, vehicle searches, op for players, and demonstrations.

**RPG-7 Launcher w/grenade**

Full-scale, three dimensional plastic replicas of a RPG-7. This device can be used for ony instruction, vehicle searches, op for players, and demonstrations.

**AT-4 Inert Launcher**

Inert tube for AT-4 training.

### **Pneumatic Machine Gun Simulator**

The device provides simulated machine gun fire for training, thus adding realism to day or night training maneuvers and conditioning soldiers to the sound and flash of weapons fire. They operate on oxygen and propane.

### **Arty Simulator**

The devices are noise simulators which can be used in all types of combat courses. They can be used to simulate the noise of artillery and mortar fire, demolitions, and mines. They operate on oxygen and propane and remote electric firing.

### **Riddle Sighting Device**

Weapon training support device for use during basic rifle marksmanship training.

### **M15 Sighting Device**

Weapon training support device for use during basic rifle marksmanship training.

### **Sighting Device**

A metal frame that attaches to the rear of the M16A1/A2 rifle carrying handle. A piece of smoked plexiglass is inserted in the frame to allow a coach to view the Soldier's aiming point.

### **Target Box Paddle**

Soldiers practice with this device to insure that they can find the same aiming point each time they fire. Soldiers look through the sights of a rifle, (in a cradle), and tell in which direction they need to move the paddle.

### **Shadow Box**

A wooden crate device that provide a position cradle for firing and aiming the weapon.

### **120mm Training Round Heat**

Rounds are used by instructors to provide Soldiers training in ammunition identification, experience in handling, and chambering of the service rounds in a manner to stress safety and avoid damage to service projectiles.

### **120mm Canister Training Round**

Rounds are used by instructors to provide Soldiers training in ammunition identification, experience in handling, and chambering of the service rounds in a manner to stress safety and avoid damage to service projectiles.

### **120mm Sabot Training Round**

Rounds are used by instructors to provide Soldiers training in ammunition identification, experience in handling, and chambering of the service rounds in a manner to stress safety and avoid damage to service projectiles.

### **120mm Training Round, Heat-mp-t**

Rounds are used by instructors to provide Soldiers training in ammunition identification, experience in handling, and chambering of the service rounds in a manner to stress safety and avoid damage to service projectiles.

### **M203 Plastic Inert Round**

For the M203 Launcher

**Crater Charge**  
Inert

**Shape Charge, 40lb**  
INERT

**Shape Charge, 15lb**  
INERT

**C4 Blocks, M112**  
Inert

**M605 Fuze**

**155mm Dummy Projectile**

### **Anti-Personnel Breaching System**

To provide the soldier with a classroom training aid as well as afield training aid for use in collective training environment.

### **Sweep Monitoring System**

The Sweep Monitoring System (SMS) is a training device for training any MOS that is currently required to operate the AN/PSS-12. Device records and evaluates technique of operation of the mine sweeper.

### **Training Target Set**

Mine target set for use with the SMS and unit owned mine sweepers.

### **UXO Bomb/Grenade**

A set of plastic and metal replicas of explosive ordnance items for training purposes. The items are divided into one of the four types: dropped, projected, thrown, and placed. They are designed to be used for classroom and outdoor instruction for unexploded ordnance (UXO) training. The items will be issued separately; this is not designed to be issued as a "package."

**M15, Anti-Tank Mine**  
INERT

**M16a1 Anti-Personnel Mine**  
INERT

**M19, Anti-Tank Mine**  
INERT

**M21 Anti-Tank Mine**  
INERT

**Combination Mine**  
M-21 Mine with tilt rod set up.

### **Spider Training Device**

This device is used for training on the SPYDER Device. (Coming soon)

### **CPR Manikin**

### **Litter**

### **Casualty Simulation Kit**

Provides materials for realistically simulating many types of wounds incurred in battle or disaster. The materials are used in training first aid to casualties.

### **IV Therapy Arm**

To provide realistic practice in performing intravenous injections in the antecubital area and dorsum part of the hand.

### **Nerve Agent Antidote Injection**

Training MK-1 Kit

**Body Part Wounds**

**Pnuemothorax Trainer**

Basic model to be used for doing needle decompressions.

**Islamic Headband/Scarf**

**Men's Islamic Clothing**

**Women's Dress, Islamic Abaya**

**Islamic Burqa**

**Islamic Woman Veil**

**Iraqi Police Shirt/Armband**

**CCMCK M4/M16 Bolt**

Converts unit owned M-4/M16 to fire sim rounds (UTM) Ammo is available through the regular ammo supply system. Face mask is required to draw UTM equipment.

### **M287 Launcher for AT-4 Weapon**

Simulates operation and firing of the AT-4 Tactical Anti-Tank Weapon. It allows a soldier to fire a 9mm tracer bullet at stationary and moving armor targets. Available through the Central Training Company only..

### **Laser Marksmanship Training System (LMTS; 10 targets)**

### **L-CATTS w/laptop**

7 E-type and F-type targets on lifters Programmable for indoors or outdoors use.

### **Warrior Kit**

6 large targets (TR-900), 6 small targets (TR-700), 1 machine gun target, and all accessories to conduct training

### **Engagement Skills Trainer (EST)**

We have 10 classrooms of EST available to use. EST provides realistic training in Marksmanship, Collective (force on force) and Shoot Don't Shoot Scenarios.

### **HMMWV Egress Assistance Trainer (HEAT)**

The Heat is used to train soldiers to react and survive a vehicle roll over. It allows units to develop SOP's for exiting the vehicle in various positions after the roll over.

### **Call For Fire Trainer (CFFT)**

The CFFT provides realistic high fidelity virtual environments and intelligent friendly, opposing and non-combatant simulated forces. The CFFT is designed to provide quality training for any MOS that needs to call for indirect fire.

(Note: MILES Gear follows. Not all gear is on Fort Leonard Wood thus a 30 day request is required to ensure the gear you want is available.)

### **IWS M4/M16 Kit**

Kit consists of M14/M16 SAT, Halo, and H-Harness

### **IWS M249 SAT**

Fits current issue M249

**IWS MAjIK**  
Used to zero IWS SATs

**Legacy M16/M4 Transmitter, Halo/Torso**

**Legacy M249 and M240B Transmitter**

**Legacy M2 Machine Gun Transmitter**

**Legacy M4/203 Transmitter**

**I-MILES UCD**  
Controller gun for all generations of MILES

**I-MILES MCD**

**AT-4 SLM**

**RPG SLM**

**BFA 19 FOR .50 CAL MG**

The device permits firing of blank .50 caliber ammunition with the M2 machine gun.

**Small Arms Alignment Fixture (SAAF)**

**M2A3 PGS**

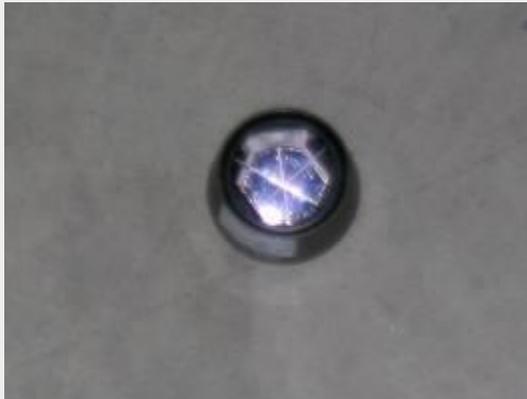

VEHICLE MILES. Used on the M2A3/M3A3 vehicles for simulated gunnery or force on force training.

**PGS Controller Gun**  
For use with PGS

**PGS Scoring Device**

**MINI-RET**

**I-MILES WITS 113 Kit**

Wireless kit for use on 113 family of vehicles, large trucks, light tracks.

**I-MILES WITS Kit**

Wireless kit for wheel vehicles comes with 2 kits per box.

**TSV M2A3 Kit**

Thru site video for M2/M3 A3 Bradley

**TSV Scoring Device**

**JAVELIN Basic Skills Trainer**

**(Special order required)** The BST is a three-dimensional training device used to train students and qualify gunners on the Javelin weapon system.

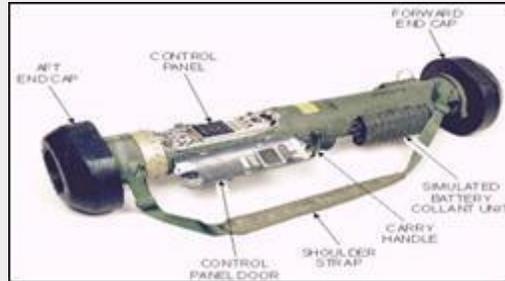

**TOW ITAS BST**

***Special order required*** Used for training ITAS gunners in a controlled environment

### **TOW ITAS FTS**

Used for simulated ITAS gunnery as well as functions as ITAS TOW MILES

### **JAVELIN FTT**

Used for simulated Javelin gunnery or for Javelin MILES.
