Secondary Containment Drainage

Secondary containment shall be inspected following rain events and drained as needed. Complete this form for <u>any</u> drainage of secondary containment. This report must be kept on file by the designated person accountable for spill prevention for each tank and/or facility for at least four years. Telephone DPW at 573-596-0882 during duty hours for more information.

Facility #: _____

Tank description (size & contents): _____

Inspection made by: _____

Title: _____ Date/Time: _____

Organization: _____ Address:

Phone: _____

Is the bypass valve closed and locked? ☐ YES ☐ NO

Does the secondary containment contain rainwater? ☐ YES ☐ NO

Does the rainwater exhibit a POL sheen or contain POL products? ☐ YES ☐ NO

If **Yes**, call 573-596-0333 and place a service order to have the Base Maintenance Contractor pump the fluid. If **No**, open the drain valve, monitor release of the fluid, note the times below, then lock the drain valve.

Did you empty the containment? ☐ YES ☐ NO

Time (valve opened): _____

Time (valve closed): _____

I certify under penalty of law that the contents of the containment have been inspected and have drained only water that contains no sheen of POL or POL product.

Tank Custodian Signature: _____
