

MILITARY TRAINING PROGRAM GE-ALC SELF ASSESSMENT

Mark the box that best describes your knowledge of the subject.

Level 0 – You have no knowledge or ability to perform this skill.

Level 1 – You can identify the concept or skill but have limited or no ability to perform independently.

Level 2 – You comprehend the concept or skill and have the ability to independently apply the concept and perform the skill.

Level 3 – You can comprehensively explain, independently apply, accurately and timely perform the concept or skill with high proficiency

SECTION I: Data, Discovery, Recovery, & Management	Level of Proficiency				Last Used			Explain any courses completed or formal training conducted
	0	1	2	3	0-6 Month	6-18 Month	18+ Month	
AGI Products:								
Standard NGA Digital Data and Products								
Datums, Grids, Projections, and Coordinate Systems								
Product Accuracy Standards								
Raster Products:								
CADRG								
CIB								
DPPDB								
Vector Products:								
VPF								
GIFD								
ITD								
Elevation Products:								
DTED								
SRTM								
HRTI								
Databases:								
Imagery exploitation-								
WARP								
IPL Overall								
Gateway Data/Product Discovery-								
Gateway								
Raster Roam								
GEOINT-								
MIDB								
NES								
Gemini								
Geonames								
Misc								
Metadata Standards								
GBS								
GeoTiff								
Mr SID								
NITF

SECTION I: Data, Discovery, Recovery, & Management	Level of Proficiency				Last Used			Explain any courses completed or formal training conducted
	0	1	2	3	0-6 Month	6-18 Month	18+ Month	
Standard Platforms & Sensors OVERALL								
NTM EO								
Commercial EO								
NTM SAR								
NTM IR								
Global Hawk EO								
Predator FMV								
U-2 EO								
U-2 SAR								
Commercial SAR								
JSTARS GMTI								
Constant Hawk/AngelFire								
Buckeye								
Lidar								
ONIR								
SECTION II: Data Manipulation	Level of Proficiency				Last Used			Explain any courses completed or formal training conducted
	0	1	2	3	0-6 Month	6-18 Month	18+ Month	
ArcGIS OVERALL								
Create a Shapefile								
Create and Maintain a Geodatabase								
Creating & Editing Metadata								
Creating & Editing Attribute Tables								
Ingest Nonstandard NGA data								
Ingest Standard NGA data								
Digitize and Edit Features								
Symbolize Features								
Define Projection and Reproject Workspace								
ArcGIS Coordinate Conversion								
Import .shp into Geodatabase								
Shapefile Creation from XY Coordinates								
Attribute and Spatial Queries								
Boolean Query (intersect/union) Operations								
Buffer Tool & Wizard								
Clip Tool								
Place Labels and Annotations								
Editor Toolbar								
Map Composition								
Export Map as..								
Map2pdf (GeoPDF) Export or Import								
Create a labeled, measured grid								
Create Reports & Graphs								
Georeferencing Toolbar								
Convert Data to ESRI GRID format								
Spatial Analyst Overall								
Arithmetic operations (raster calculator)								
Slope Analysis (SA)								
Hillshade (SA)								
Contours (SA)								
Density Plots (SA)

SECTION II: Data Manipulation	Level of Proficiency				Last Used			Explain any courses completed or formal training conducted
	0	1	2	3	0-6 Month	6-18 Month	18+ Month	
Military Analyst Overall								
Building Geodatabases (MA)								
Merging (MA)								
Mosaicking (MA)								
3D Analyst Overall								
Create a TIN (3D)								
Viewshed (3D)								
Line-of-sight (3D)								
Fly-through (ArcGlobe)								
Tracking Analyst Overall								
Geostatistical Analyst Overall								
Network Analyst Overall								
GeoRover Overall								
Coordinate conversion								
Convert to .shp (GR)								
ArcGIS Explorer Overall								
ArcSDE Server – New CASi-F system								
ArcIMS- New CASi-F system								
ERDAS Imagine Overall								
Mosaicking								
Subset								
Import/Export								
Slope Analysis								
Shaded Relief								
Contours								
Grids								
Map Composition w/inset								
Viewshed								
Perspective View								
Anaglyph								
Map bleed								
Fly-through								
Line-of-sight								
Resolution Merge								
Rescale								
Controlling Images								
Mensuration								
Convert to .img files								
Reproject								
Georeference								
Orthorectification								
Other Applications:								
Terra Explorer Pro								
GEOTRANS Overall								
Google Earth								
GeoPDF								
Other Hardware:								
Plotters Overall

GE-ALC SELF ASSESSMENT**

SECTION III: Dissemination & Communication	Level of Proficiency				Last Used			Explain any courses completed or formal training conducted
	0	1	2	3	0-6 Month	6-18 Month	18+ Month	
Data Download via HTTP								
Data Transfer via FTP (Push/Pull)								
Wikipedia								
Intelink								
Hardcopy Product Production:								
Classification of Data and Products								
Release & Disclosure Familiarity								
Printing hardcopy								
Microsoft Office Overall								
Power Point Skills Overall								
Creating Briefings								
Inserting images into PP								
Word Skills Overall								
Excel Skills Overall								
Adobe Photoshop Overall								
Cropping Images								
Resizing Images								
Image compression								
Converting and Outputting image formats								
Printing in panels								
Photomerge								
Image enhancement w/out changing resolution								
SECTION IV: Other	Level of Proficiency				Last Used			Explain any courses completed or formal training conducted
	0	1	2	3	0-6 Month	6-18 Month	18+ Month	
Multi-Int Experience:								
HUMINT								
SIGINT								
IMINT								
All Source
