MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Command Policy 4, Commanding General's Installation Safety Training Holiday

1. GENERAL.

a. This policy applies to all military personnel under the control of the Commanding General, U.S. Army Maneuver Support Center of Excellence, Fort Leonard Wood, Missouri.

b. This policy establishes a safety training holiday in recognition of achieving 100 consecutive days without a fatal accident. Personnel killed while engaged in a lawful on- or off-duty activity may be included as a fatal Army accident.

2. POLICY AND PROCEDURES.

a. The Commanding General will make the announcement when the installation has earned a safety training holiday. The safety training holiday will include a weekend with a Monday or a Friday. The Commanding General is the approving authority for request to train on the safety training holiday.

b. The aggressive support of each leader is needed to ensure the success of this important safety incentive program. Every leader has a responsibility to do all they reasonably can to prevent accidents. Leaders must identify high-risk Soldiers and provide them special accident prevention counseling. Briefings must emphasize safety discipline and encourage good judgment in all activities. Statistics clearly illustrate that heightened safety awareness and consciousness reduces accidents. Our Army's readiness is seriously diminished each time we suffer a fatal accident.

3. SUPERSESSION. This policy is effective until superseded or revoked.
