The Healthcare Consortium meeting will be held on Dec. 11, 2012, in room 155-21, at 1430, which is the Commander’s Conference Room located in the south west corner on the hospital’s main floor.

The Healthcare Consortium serves as a consumer advocate board in which the unit and community representatives have direct feedback to the hospital Commander and her...staff concerning the type and quality of care provided at the General Leonard Wood Army Community Hospital. It is a forum for beneficiaries to provide input to healthcare delivery policy and to promote communication between the

medical treatment facility and its beneficiaries. This is a forum for outside input into process improvements for the organization.

General Leonard Wood Army Community Hospital intends to foster an environment of engaged and committed healthcare providers who are actively engaged with our patients, and are committed to providing well-coordinated care that promotes and optimizes health.

If you can provide input to healthcare delivery policy or process improvements, please consider attending this meeting.

This is not a session for individual patient complaints. For those we have our patient representative who will take care of individual issues. Please contact a Patient Representative at 573.596.0045 or 573.596.0681 or stop by the Customer Service Office in room 123 located next to the main bank of elevators.

Everyone is invited to attend the Healthcare Consortium meeting. Hope to see you there!

Do YOU know someone who hasn't gotten their flu shot yet? Here's an approach you may use to convince them to get immunized:

- Question: Are you going to get your flu shot this year?
- Answer: No—I don't like shots!
- Response: I know how you feel—I don't like shots either—never have. But I got the flu one year and gave it to my newborn daughter, Haley. She was just a baby and it was a terrible thing to see her go through that--wheezing and coughing and so sick. That made me think twice about whether it was worth it to me to get the flu shot or not.
- Just suppose you get the flu this year and give it to your new baby, or your elderly parent, or an elderly person at the grocery store...
- ...Then wouldn't that make you think about getting a flu shot?

MSCoE SAFETY
POC: ROBBIN JOHNSON, 596-2961 Dec/Jan

Impaired Driving:

Every day, 36 people in the U.S. die, and about 700 more are injured, in crashes that involve an impaired driver. Even a small amount of alcohol depresses the central nervous system, impairing judgment, vision and reaction time. Medications can have the same affect! To prevent Impaired Driving:

- Never drink and drive. Choose a designated driver beforehand
- Plan to take a taxi TO and FROM your event where alcohol is served.
- Serve alcohol-free beverages and a variety of snacks to guests throughout the event.
- Collect your guest keys once they arrive for those thinking about consuming alcohol to prevent them from driving. Offer them a comfortable couch or other options if possible.
- Don't risk your life or the lives of others on the road! Call a friend, family member, neighbor, co-worker or even your boss. Chances are they'd rather give you a ride now, than be notified you were involved in an accident!

Holiday Home Safety Tips: *With the hustle and bustle of the holidays, it seems that there's never enough time to get everything done. Seasons change and so do safety hazards. Help protect your family by staying one step ahead. Take time to review your Home Safety Plan and involve your kids in learning all year round.*

- Talk to your kids about safety. Teach them not to touch electric lights, cords or decorations.
- Examine your lights for wear – ensure they meet the UL seal of approval.
- Ensure live trees are watered frequently to prevent a fire hazard.
- Never leave cooking unattended and turn pot handles inward while cooking to safeguard kids grabbing the handles.
- Ensure candles and matches used during the holidays are stored and locked away from children.
- Candles are a nice holiday decoration, never position them near curtains and other flammable products.
- Secure (tacking, taping, etc.) mats, rugs and carpets that do not lie flat.
- Inspect ladders before use and only use extension cords approved for the outdoors while hanging light sets.
- Clear sidewalks of snow, ice to prevent slips, trips and falls. Wear rubber sole shoes for additional traction and never run on slippery surfaces.
- Review your fire escape plan and never block exits with decorations; test your smoke alarm. Replace batteries as needed?
- Good housekeeping, quality walking surfaces, selection of proper footwear, are paramount in preventing falls.
