Fort Leonard Wood releases mobile app on Google Play

FORT LEONARD WOOD, Mo. – Owners of Android mobile devices can now have access to the latest Fort Leonard Wood news and information right at their fingertips – literally.

Fort Leonard Wood released a free mobile app on Google Play for Android devices today. The app provides information on the various organizations within the Maneuver Support Center of Excellence and Fort Leonard Wood, such as the U.S. Army Chemical, Biological, Radiological and Nuclear School; the U.S. Army Engineer School; and the U.S. Army Military Police School, as well as the Marine, Navy and Air Force detachments. It also provides information on things to do on the installation and on-post services to include Army Community Service, post housing and the Recycling Center.

The Fort Leonard Wood Public Affairs Office developed the app with the help of the MSCoE's Program Support Division under the G-3/5/7. According to Tiffany Wood, Fort Leonard Wood Public Affairs Office acting director, creating this app is a huge success for Fort Leonard Wood.

"As far as I know, Fort Leonard Wood is one of the first, if not the first, Army installations to develop a mobile app," Wood said. "This app allows Fort Leonard Wood to get its information to people the way they want it, which is literally at their fingertips."

And for those Apple users out there, Wood said her office is in the planning process of developing an app for Apple devices.

To access the Fort Leonard Wood Android app, visit the Google Play story at https://play.google.com/store/apps/details?id=com.pao.flw.info&feature=search_result#?t=W251bGwsMSwxLDEsImNvbS5wYW8uZmx3LmluZm8iXQ

or access it here:

About Fort Leonard Wood

Fort Leonard Wood is a thriving and prosperous installation that has evolved from a small basic training post 70 years ago to a premier Army Center of Excellence that trains 80-90,000 military and civilians each year.

Home to the Maneuver Support Center of Excellence, Fort Leonard Wood now trains and educates service members and develops doctrine and capabilities for the Training and Doctrine Command's U.S. Army Chemical, Biological, Radiological, and Nuclear School, U.S. Army Engineer School, and U.S. Army Military Police School, three gender integrated Initial Military Training brigades, one of only five reception stations in the Army, and the Army's largest Non Commissioned Officers Academy.

Over the past several years, Fort Leonard Wood has received numerous additional responsibilities to include supporting the 4th Maneuver Enhancement Brigade, a large Forces Command unit that is responsible for all deployable capabilities at Fort Leonard Wood. A colonel-commanded Marine Corps Detachment and an Air Force Detachment, which are both the largest on any Army installation, are located on Fort Leonard Wood; a large Navy Seabee Detachment and elements of the Coast Guard train here as well.
